

## PALLADIAN

This traditional style stairs is given it's own uniqueness when combined with one of our stainless steel and glass balustrades. Handrail can be timber finished and steps may be open or closed risers.

# PALLADIAN

- Mild steel plate stringers.
- Stringer will be filled & primed finish, ready for finish colour by client.
- Palladian are suitable to fit any of the 'Signature Stairs' balustrades but most commonly it is installed with 'Elegant Killarney' or 'Glenflesk' railing.
- 'Elegant Killarney' Balustrade is fabricated using 304 grade, high bushed finish stainless steel, 50 mm dia uprights and handrail with pin & post detail from upright to the handrail. There is also a stainless pin & circular clamp to the 10 mm clear toughened glass infill panels (polished edges throughout). This railing is generally top fixed into the steps of the stairs.
- 'Glenflesk' railing is similar to 'Elegant Killarney' above but with 'D' clamps to the glass infill panels.
- Open rise steps in agreed timber choice. 22 mm solid timber cladding on top side of metal thread plates with no cover to underside unless agreed. Building regulation 100 mm opening to rises.
- Matching gallery railing – top or face fixed depending on site conditions and balustrade used.
- In the case of 'Elegant Killarney' & 'Glenflesk' the standard stainless handrail can be replaced by a predrilled stainless flat plate which is covered by a rebated timber handrail.
- Clients will be given instructions on how best to prepare for installation to ensure fixing details can be concealed easily after their stairs is fitted.
